Bayer Pakistan

Crop Science Division

Crop Protection Product List 10/10

Micronutrient

Planofix

*Cotton, Chili,
Apple, Mango
and other fruits*

Planofix is a plant growth regulator used for the purpose of inducing flowering, preventing shedding of flower buds and unripe fruits. It helps in enlarging fruit size, increasing and improving the quality of yield of fruits.

Stance

Cotton

Stance is a plant growth regulator for cotton to maximize production. combining convenience and simplicity, it strengthens the capacity of the plant to retain intact flowers, squares and bolls and ultimately supports for higher yield and faster harvesting.
