Cautionary Statements Regarding Forward-Looking Information

This presentation contains forward-looking statements. A forward-looking statement is any statement that does not relate to historical facts and events, but rather reflects Bayer’s current beliefs, expectations and assumptions regarding the future. This applies, in particular, to statements in this presentation on revenue growth, including product introductions and peak sales potential, synergies, especially in relation to the acquisition and integration of Monsanto Company, portfolio adjustments, cost reduction, financial targets and earnings, cash flow generation, deleveraging and other similar statements relating to future performance, including with respect to the markets in which Bayer is active.

Although the forward-looking statements contained in this presentation are based upon what Bayer’s management believes are reasonable assumptions, they necessarily involve known and unknown risks and uncertainties that could cause actual results and future events to differ materially from those anticipated in such statements. Forward-looking statements are not guarantees of future performance and undue reliance should not be placed on them. Bayer undertakes no obligation to update forward-looking statements if circumstances or management’s estimates or opinions should change except as required by applicable securities laws.

For more information on factors that could cause actual results and future events to differ from those anticipated in forward looking statements, please refer to the factors discussed in Bayer’s public reports which are available on the Bayer website at https://www.investor.bayer.com/en/reports/annual-reports/overview/, including in the Annual Report 2017 under the caption “Report on Future Perspectives and on Opportunities and Risks”.

1 The unaudited Pro-forma data are presented as if both the acquisition of Monsanto and the associated divestments had taken place as of January 1, 2018. Sales of Monsanto are presented in periods as per the Bayer fiscal year. One-time effects of business operations, the accounting for discontinued operations and the recognition and measurement of sales from certain business transactions have been adjusted in line with our accounting. Due to this simplified procedure, they explicitly do not reflect sales according to IFRS or IDW RH HFA 1.004, meaning they have not been audited.

We Have Clear Priorities for Capital Allocation

Focus on Shareholder Return, Innovation and Deleveraging

**Disciplined capital allocation**

- **Shareholder Return**
  - Growing dividends
  - Consider share buy backs with parts of divestment proceeds

- **Deleveraging**
  - Target range ~€26-28bn\(^1\) net financial debt by end 2022

- **Innovation & Acquisitions**
  - Investment in licensing opportunities
  - Potentially selective bolt-on acquisitions

\(^1\) Before M&A / Portfolio
We Will Create Significant Value Through 2022 and Beyond

Focus on Execution and Driving Sustained Profitable Growth…

1. We have completed Bayer’s portfolio transformation into a global leader in Health & Nutrition

2. The next phase is focused on driving value creation through (i) growth ahead of competition enabled by innovation and portfolio measures (ii) profitability enhancement through Bayer 2022 synergy and efficiency programs and (iii) strong cash generation

3. We target Sales, Core EPS and FCF CAGR* until 2022 of 4%, 10% and 18%, respectively

4. Strong FCF along with proceeds from divestments enable (i) growing dividends, (ii) quick deleveraging of our balance sheet and (iii) selective bolt-ons and in-licensing transactions
