Document Title

Summary of the residues in or on treated products, food and feed
Fluopyram SC 500 (500 g/L)

Data Requirement(s)

Document MCP

Section 8: Residues in or on treated products, food and feed

According to the Guidance Document SANCO/10181/2013 for applicants on preparing dossiers for the approval of a chemical active substance

Date

2021-03-01

Author(s)

Bayer AG
Crop Science Division
OWNERSHIP STATEMENT

This document, the data contained in it and copyright therein are owned by Bayer AG and/or affiliated entities. No part of the document or any information contained therein may be disclosed to any third party without the prior written authorisation of Bayer AG and/or affiliated entities.

The summaries and evaluations contained in this document are based on unpublished proprietary data submitted for the purpose of the assessment undertaken by the regulatory authority. Other registration authorities should not grant, amend, or renew a registration on the basis of the summaries and evaluation of unpublished proprietary data contained in this document unless they have received the data on which the summaries and evaluation are based, either:

- from Bayer AG or respective affiliate; or
- from other applicants once the period of data protection has expired.

Furthermore, any publication, distribution and use of this document or its contents without the permission of the owner may therefore be prohibited and violate the rights of its owner.
## Version history

\(^1\) It is suggested that applicants adopt a similar approach to showing revision and version history as outlined in SANCO/10180/2013 Chapter 4, ‘How to revise an Assessment Report’.
It may be subject to rights such as intellectual property and/or any of its affiliates.
Consequently, any document may fall under a regulatory data protection regime.
Any publication, distribution, reproduction and/or publishing and use of this document or its contents are prohibited and violate the rights of its owner.
RESIDUES IN OR ON TREATED PRODUCTS, FOOD OR FEED

Fluopyram was included in Annex I to Council Directive 91/414/EEC in 2013 (Regulation (EU) 802/2013, Entry into Force on August 22, 2013). This Supplementary Dossier contains only data which were not submitted at the time of the Annex I inclusion of Fluopyram under Council Directive 91/414/EEC and which were therefore not evaluated during the first EU review. All data which were already submitted by Bayer AG (former Bayer CropScience) for the Annex I inclusion under Council Directive 91/414/EEC are contained in the Draft Assessment Report (DAR) and its Addenda and are included in the Baseline Dossier provided by Bayer.

The formulation Fluopyram SC 500 (500 g/L), abbreviation FLU SC 500, is a SC formulation containing 500 g/L of Fluopyram. This formulation is registered throughout Europe under trade names such as Luna Privilege. FLU SC 500 was already a representative formulation of Bayer AG for the Annex I inclusion of Fluopyram under Council Directive 91/414/EEC.

All relevant metabolism and residue data in support of this use are summarized in Document MCA, Section 6.
