

Blockbuster

/// New Fungicide

**Broad-Spectrum Disease
Control in Corn, Soy
and Cereals**

THE CHALLENGE

Foliar diseases that strike near grain fill, spread rapidly and devastate yield

THE SOLUTION

Protect against high disease pressure longer with a next-gen triazole fungicide

THE BAYER DIFFERENCE

Foliar and seed treatment uses with exceptional crop safety profile

Excellent performance against the key yield robbing foliar diseases of mainstay arable crops

Formulations under development for major North America row crops and European cereal markets
