

StryaxTM Dicamba Herbicide

Designed as an additional option for broadleaf weed control in dicamba-tolerant soybeans and cotton

THE CHALLENGE

Spread of resistant broadleaf weeds including Palmer amaranth, Waterhemp, marestail, velvetleaf, lambsquarters and common ragweed across the United States

THE SOLUTION

Ideal option for managing glyphosate-resistant broadleaf weeds and other tough-to-control species in dicamba-tolerant soybean and cotton fields*

Learn More:

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

StryaxTM herbicide is a restricted use pesticide and must always be tank-mixed with a qualified volatility reduction adjuvant (VRA), such as a VaporGrip[®] Xtra Agent, and a drift reduction agent (DRA) as required on the product label. For qualified VRAs and other important label information visit www.StryaxApplicationRequirements.com.

The user must check www.StryaxApplicationRequirements.com no more than 7 days before application of this product for additional labeling and any additional state-specific labeling. Where applicable, users must comply with additional requirements found on www.StryaxApplicationRequirements.com.

StryaxTM herbicide is a restricted use pesticide. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state. Not all products are registered for use in all states and may be subject to use restrictions. Bayer, Bayer Cross, StryaxTM herbicide and VaporGrip[®] are registered trademarks of Bayer Group. THE BAYER DIFFERENCE

Weed Management:

Formulated for activity against over 350 weed species, including Palmer amaranth, waterhemp, marestail, velvetleaf, lambsquarters, common ragweed and giant ragweed

Limited Soil Activity:

Provides up to 14 days of limited soil activity** on certain broadleaf weeds, helping to extend weed suppression beyond initial application

Flexible Tank Mixing:

Blends with a broad range of tank mix partners for additional modes of action for resistance management***

*Designed as an additional option for broadleaf weed control in soybeans with XtendFlex[®] Technology, soybeans with Roundup Ready[®] 2 Xtend[®] Technology and cotton with XtendFlex[®] Technology

**Areas with rainfall and/or irrigation after application with dicamba will have reduced or limited efficacy on emerging weeds

***StryaxTM herbicide is a restricted use pesticide and all applications require a qualified volatility reduction agent and a drift reduction agent in the tank mix
